## **U.S. ARMY MEDICAL MATERIEL CENTER - KOREA (USAMMC-K)**

### **Mission Execution**

USAMMC-K stands ready to "Fight Tonight" to serve as U.S. Forces Korea (USFK)'s Theater Lead Agent for Medical Materiel (TLAMM) and provides medical materiel support to theater medical forces, ensures tactical units are integrated into the medical supply chain and assists the Combatant Commander in health logistics support planning. In addition to serving the Army, USAMMC-K also provides medical logistics support to joint forces and the U.S. Department of State.

USAMMC-K manages two centrally funded programs, including the Medical Chemical Defense Materiel (MCDM) and pandemic influenza (PI) stocks. USAMMC-K contributes to Eighth Army's medical readiness by managing and fielding countermeasures used in the protection and treatment of Soldiers in the event of a chemical, biological, radiological, or nuclear attack. These counter measures include pretreatment, treatment, antidotes, skin decontamination and potency and dated (P&D) items for the Medical Equipment Set, Chemical Agent Patient Treatment. PI stocks managed by USAMMC-K are centrally funded assets by the Assistant Secretary of Defense (Health Affairs) and are intended to respond to a pandemic or other public health emergencies.

The USAMMC-K team includes approximately 90 people, including U.S. and Republic of Korea military, local Korean civilians, and Army Civilians.
